

To enable the compatibility mode for **Internet Explorer 10**, follow these steps:

Windows 7 users start at step 2.

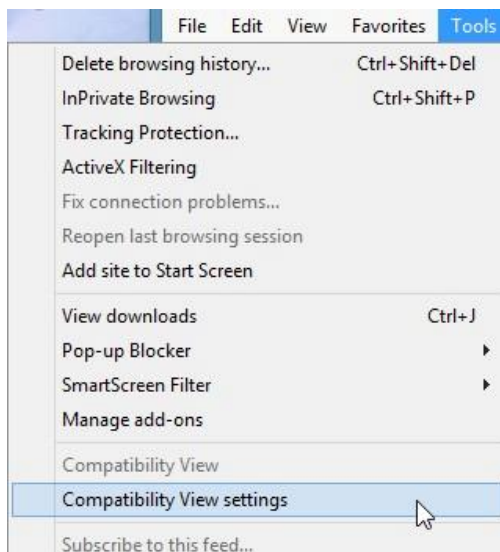

1. **Windows 8 only** - From the **Windows 8** start screen select the **Desktop**.

2. From the **Desktop** launch **Internet Explorer 10**.

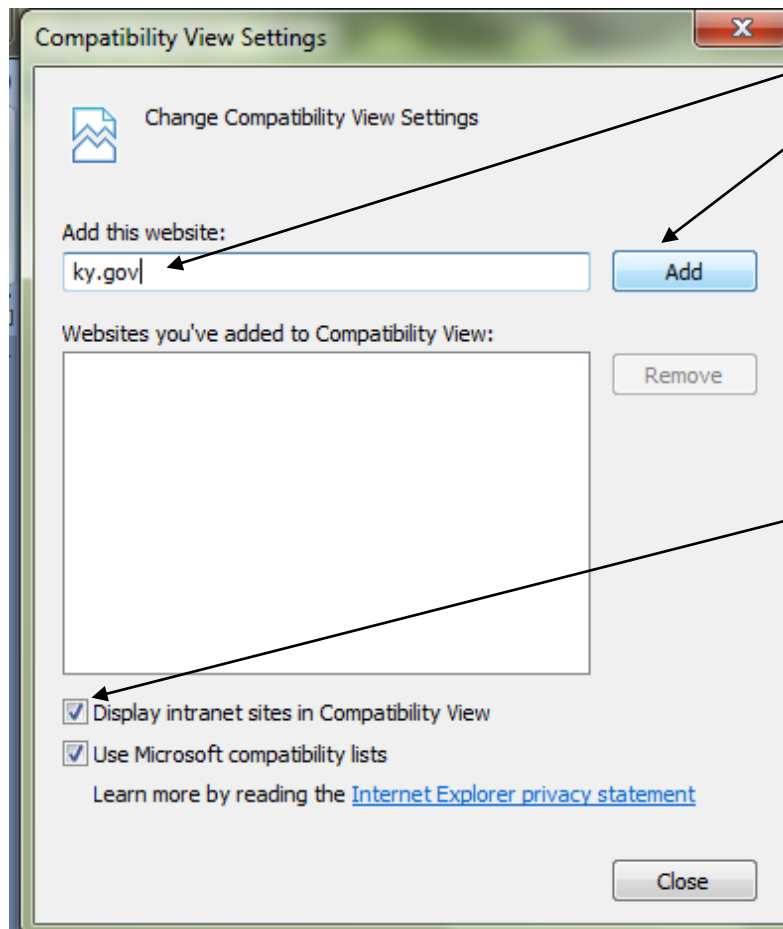

3. Press the **Alt** key on your keyboard to bring up the top menu.
4. Go to **Tools | Compatibility View** settings

5. Either

- Add **ky.gov** to the **Compatibility View** websites or
- Select **Display all websites in Compatibility View**

Ky.gov should automatically be populated in the text box. Simply, click the add button.

Ky.gov will appear in the “websites you’ve added” box when the process is complete.

Click on display intranet sites in compatibility mode.

6. **NOTE:** enabling the compatibility mode using either option will **affect** all **K-State** web sites.
